Below are the Guidelines and Procedures for Non-Resident Students. Please direct any inquiries to Cathy Watkins, Administrative Assistant, Student Services.

6.204 [P] Non-Resident Students [Procedures]

1. Parents making requests for students to attend Robertson County Schools from other counties must reach out to the Office of Student Services and complete an application form. A Letter of Good Standing from the student's previous principal must be attached to the application. This letter must indicate that the student has a positive record in reference to discipline, attendance, and academics. Requests for non-resident attendance must be made annually.
2. The Director of Schools/Designee will review all documents and determine eligibility. [No enrollment will create an overcrowding situation at any school.]
3. Upon approval, tuition must be paid based on the average local and state per-pupil expenditures [currently \$2,600]. This amount is to be paid before the beginning of the first semester.
4. Upon payment, the Office of Student Services will notify the building principal of the approval of enrollment and letters of approval will be sent to the pertinent principal and the student's guardian.
5. Students may not attend school prior to approval and payment of tuition. Students with outstanding balances will not be allowed to attend as non-resident students.
